

Our commitment to Quality and Safety ensures that our people get home safely each day so in our line of work, it is more than a punch line.

Intelli-Systems is dedicated to quality, safety, and its continuous improvement for the benefit for our employees, workers, our customers, and our partners. We do not compromise, and we pride ourselves in going above and beyond to ensure we deliver the best quality and never take any shortcuts which may compromise our safety.

We do this through our established policies, processes and procedures that removes ambiguity from our ways of working, active tracking of measurable goals designed to help us constantly improve, and our training and mentoring program that prioritizes transparency and openness above all else.

We demand that every individual across our business together with our broader customer and partner ecosystem are jointly responsible for quality and safety and we achieve this through proactive communication, consultation, efficient process, programmatic training, adoption of smart technology and active mechanisms to track and measure our progress.

Our Quality standard and associated systems have been designed and implemented in accordance with ISO 9001:2015 Quality Management Systems and they are reviewed regularly to ensure we are compliant with legislation, industry regulations and codes of practice.
